EXT. DOWNING STREET - LONDON

The cloaked and scarfed figure of a two-piece skirt suit emerges from the darkened open doorway of Number 10.

FEMALE VOICE
(faint, to herself)
This time. This time the trick will
be done.

The figure crouches and steals through an open rear door of a shining Armoured Jaguar XJ LWB Sentinel, parked outside the residence of the First Lord of the Treasury.

The door closes.

FEMALE VOICE (O.S.) (CONT'D)
(grimacing)
Surely?
