**INT. WEAVING ROOM - LINEN MILL**

Floor-to-ceiling rolls of linen, stacked up on slow-cranking racks, tower over MELANIA (43, diligent and sparkling in dark overalls and hair cap) as she scans for *weave anomaly*.

PUBLIC ADDRESS SYSTEM  
Employees are reminded to fully  
decontaminate prior to entry onto  
the Weaving Room floor.

Melania nods on, clean: *check, check, check*.

PUBLIC ADDRESS SYSTEM (CONT'D)  
*Quality is control.*

**INT. WEAVING ROOM - LINEN MILL**

Melania at the stacks, unchanged: *check, check, check*.

PUBLIC ADDRESS SYSTEM  
Decontamination levels at 100%.

Melania casts a quick eye over herself: *impeccable*.

PUBLIC ADDRESS SYSTEM (CONT'D)  
If deviation is noted, report to  
Decontamination 571A for recovery.

Melania nods along: *check, check, check*.

PUBLIC ADDRESS SYSTEM (CONT'D)  
*Quality is control.*

Melania pauses, scrunches up her face, squints.

PUBLIC ADDRESS SYSTEM (CONT'D)  
*And control is quality.*

Melania sneezes, free and immediate, straight into the linen.

The rack lurches and CLANKS, slows, stops.

SILENCE.

The rack CRACKS into gear, rolls on once more.

Melania recovers, breathes, resets, goes again.

Also, staff bingo's at six. Thanks.

*Check, check, check.*
